

### Our Three Year Old Program

is designed for children who will be at least 3 years old by September 30<sup>th</sup> of the year they will be attending the preschool. These classes meet on Tuesdays & Thursdays from 8:30 a.m. to 11:00 a.m. and focus on socialization and the transition from home to school. The yearly tuition for our 3-year old program is broken into 9 monthly payments of \*\$130.00  
\*Tuition subject to change

### Our Four Year Old Program

is designed for children who will be at least 4 years old by September 30<sup>th</sup> of the year they will be attending the preschool. These classes meet on Mondays, Wednesdays & Fridays from 8:30 a.m. to 11:30 a.m. and place emphasis on important skills needed in preparation for Kindergarten. The yearly tuition for our 4-year old program is broken into 9 monthly payments of \*\$180.00.  
\*Tuition subject to change

### Our School Year

runs for 37 weeks beginning in mid September and ending in mid May following the same holidays, vacations and snow days as the Kearsarge Regional School District

### Parents And Families

are encouraged to take an active role in their preschool. We offer a wide variety of ways for parents to be involved, all requiring different amounts of time & effort. For example, you may choose to sit on the board of directors that meets regularly through out the year or find that helping with the set-up of one of our events works better for you. You may choose your level of involvement based on your ability to contribute. All positions are essential for a smooth running preschool program.

### We Are A Non-Profit Organization

run by a volunteer board of directors made up of dedicated parents and our success relies heavily on volunteer efforts from both families and staff members.

### To Register Your Child

# The WARNER COOPERATIVE PRESCHOOL

Learning Together  
Through  
Exploration, Imagination & Play

**The Warner Cooperative Preschool**

provides a developmentally appropriate learning environment for preschool age children. Its exciting play-based curriculum ensures valuable experiences in art, math, science, literacy, social development and physical development for young children. These core content areas are addressed through song, story, movement, art and exploration of the natural world. Trust and safety are key elements of the program, with the ultimate goal being to foster a positive self image and an enthusiasm for the school experience.

**Our Curriculum**

is based in the rich experiential process of learning through which in depth, hands-on experiences are provided for children daily. As such, children's interests and ideas are observed and incorporated into the classroom curriculum, which creates an exciting child centered learning environment. Specific emphasis is also placed on children making connections between, home, school and the community. Experiences are enhanced through the many visiting artists and story tellers welcomed into our classroom. Multiple trips out into the community through out the course of the year are also part of the regular curriculum.

**Our Staff**

is made up of highly educated, caring teachers. Our lead teacher offers a 4-year degree in early childhood education and our teaching assistant holds a 4-year degree in sociology education and has focused on teaching to children. Together they provide numerous opportunities for the children to engage in a wide variety of new experiences each day that are both: Self-Initiated & Teacher Guided, Group & Individual, Active & Quiet, Fine & Gross Motor allowing them to discover their own special interests and grow into their full potential as unique individuals. They are dedicated educators with a deep understanding of how children play and learn at different stages of development.

**Our Class Sizes**

are purposely kept small to enable our staff to know each child as an individual and arrange for their specific needs ensuring each child a positive, rewarding experience. The small size of each group gives the children a chance to connect with their teachers and peers by working closely together on various projects during the school day. The result is a stimulating environment filled with play and friendship, where children gain competence, confidence and a growing sense of self.
